

Where Innovation Goes to Grow

We're growing...

- Biomedicine
- Advanced Materials (Nanotechnology)
- Alternative Energy Sources
- Information Technology
- Instruments-Controls Technology

The Akron Global Business Accelerator fosters programs for driving and developing technology-based entrepreneurial innovation. The Accelerator is a state-of-the-art center that serves as a catalyst for growing your business. We provide modern facilities including:

- Flexible office space
- Lab research areas
- Light manufacturing space
- Comprehensive IT and data communications
- Conference rooms & catering
- Multiple loading docks

The Accelerator has earned an international reputation as a proven small business incubator. High-tech companies from around the globe also take advantage of our key business services including:

- Business development assistance
- Consultation on business operations
- Marketing & sales assistance
- Access to government grants & loans
- Help procuring investment capital

If you're looking for a place to grow your business, contact: Akron Global Business Accelerator.
